

Topic: Sherlock Walsh and the case of the missing pet.

Backstory:

Kealii inherited a pet from his long lost Uncle from Molokai whom Kealii has never met before. Kealii does not know what kind of pet it is, only that he was supposed to receive the pet from the Bike Messenger Service yesterday. Bike messenger Trippy, while on his way to deliver the package which he knows contains some kind of animal but is unsure of what kind, stops to buy a hotdog. She leaves the package on her bike. When she returns, the package had been opened, and the pet that was enclosed is missing. Trippy doesn't want to tell her boss at the Bike Messenger Service that the pet is missing because she might get fired, but she does inform Kealii that the package is missing. Trippy and Kealii are good friends, so Kealii doesn't want to get Trippy fired. Kealii elicits the help from Sherlock Walsh and his assistant Dr Ah Nee in helping to find the missing pet.

Cast of Characters:

Sherlock Walsh, pet detective - Lead investigator

Dr. Ah Nee - Co-investigator

Kealii - Pet Beneficiary, new owner of the pet

Storyline Narrative Character:

Uncle: long lost Uncle of Kealii who had bequeathed the pet to Kealii in his will after he died.

Dr. Merfa, invertebrate specialist: witness while collecting invertebrate in area. provide the following clues: jar, invertebrate knowledge, wings

Dr. Gil Gershom, Thermal Heat Scientist: taking thermal heat images of the area. provided the following clues: thermal image,

Concept Attainment Story Board:

- (Specific script will be improvised as that is my strength but I can outline dialogue in further detail if needed)

1. Sean introduces himself to the class and deputizes them all in the name of Scotland Yard.
2. Kealii comes in shortly after inquiring about the results of the missing parcel, and reminds us of the details about how he doesn't know what the pet is because it was in a sealed cage, but he needs to find it in time to deliver it to Mr Kim's Birthday Party.
3. Sean asks the new deputies to aid in the investigation and Chelsea hands out case files.
4. Sean then breaks up the deputies into two teams.
5. Case files are called one by one to be scanned and results displayed on screen 1, screen 2 puts the picture into the appropriate **yes** or **no** column.
6. Once all evidence is displayed, Sean asks the two groups to discuss amongst themselves what they think the *pet* might be.
7. One representative from each team is asked to provide a guess as to the *missing pet*.
8. Photos are provided from pets that were found in the area where the package was stolen. The Teams must choose which pet was in the package.
9. Students are asked to provide some examples of other birds in their neighborhood.
10. Time depending we can show slides of bird native to Hawaii with a little information.

Evidence Blurbs for Evidence Web Pages:

1. **#5wrfoz0** Feathers - This feather was found near the opened cage.
2. **#jgevpma** Wings - Business man described the animal as having wings rather than arms.
3. **#4ilrae4** Bipedal - Jenkins met the missing pet stood on two feet next to him at the nearby park.
4. **#mnfyiub** Warm-blooded - Dr Grishom while doing a thermal survey of the registered the missing person as being warm blooded
5. **#fu0xhz8** Egg-laying - These pieces of shell were left in the package.
6. **#mjgv7tc** Vertebrate - a biologist specializing only in invertebrates, Dr. Merfa witnessing the event described the suspect as not an invertebrate.
7. **#q14pq12** Beak - Trippy Hedrone's half eaten hot dogs left at scene had definitive beak marks them
8. **#p585l4d** Cross - continental - an anonymous informant tips us off that relatives of the missing PET lives homes on every continent in the world.
9. **#1tspt16** Jar - this object was located at the scene but determined to be owned by Dr. Merfa for collecting invertebrates.
10. **#wvf6ahe** Bicycle - this object was located at the scene but determined to be owned by Trippy Hedrone.
11. **#jzztu20** Fork - this object was located at the scene but determined to be owned by the businessman who was on his lunch break.
12. **#mgab3df** bottle - this object was located at the scene but determined to be the personal property of a businessman on a lunch break.
13. **#qusyh24** DNA analysis show that the hairs a human, not animal.
14. **#ikw1kg** Rubber Glove - this object was located at the scene but determined to belong to Dr Merfa.
15. **#095pb28** HDTV - Located near table, determined to be owned by businessman with verifiable receipts
